From messy...

An organized freezer helps you keep track of food. You'll never have to rummage through to find what you need. This means less opening and closing of the freezer door which can lead to fluctuating temperatures that can spoil food.

...To organized

• Avoid putting hot food in the freezer.

If you cook some of your freezer meals ahead of time, put it in the refrigerator to cool off completely before you stick in the freezer.

• Keep temperatures below freezing.

Freezer burn only occurs if the temperature fluctuates above 0°F.

• Don't leave the door to the freezer open.

Along the same lines, you don't want to stand in front of the freezer with the door open for long lengths of time. This will cause the temperature in the freezer to rise, making it likely to rise above freezing.

• Always thaw food in the refrigerator,

not on the counter top.

Keep things handy, HEALTHY, COOL

Hydrate your way to a flat tummy!

Try our refreshingly healthy
infused water recipe

1 liter water
8 strawberries
1/2 lemon, thinly sliced
2 mint leaves

Add halved strawberries, lemon slices and mint
leaves into Handy Cool. Fill Handy Cool with
water, chill in the fridge and serve.

Why infuse water with fruits?

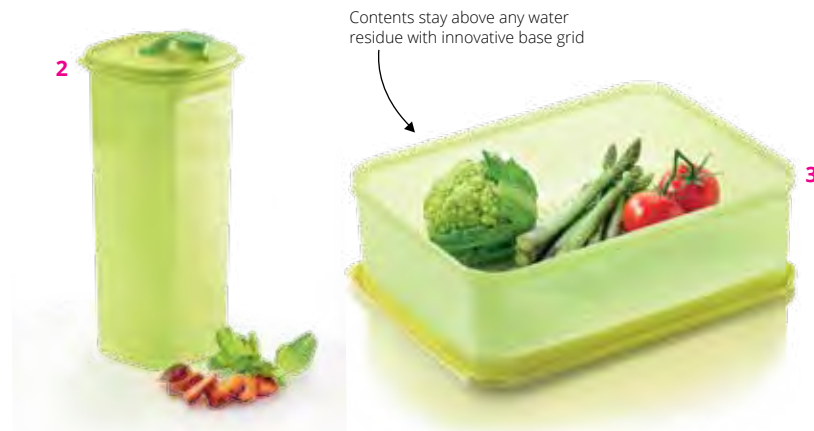

Strawberries are packed with antioxidants
and keep your water sweet.

Lemons provide a natural cleansing and detox
effect thanks to the citric acid that effectively
flushes toxins from your digestive system.

Mint leaves help your body digest better
and soothe stomach cramps.

Bilberry Goodness

Look visibly different with NaturCare® Gluta HA

Every face tells us a story. It is like a mirror that reflects the choices we make in our lifestyles and reveals the consequences of age, which eventually takes a toll on our complexion and results in fine lines, wrinkles, dull and sagging skin.

Why do we age?

Internal Factors¹

- Collagen production depletes with age
- Skin loses elasticity
- Skin cell renewal rate slows down

External Factors¹

- Sun exposure
- Cigarette smoke
- Unhealthy diet
- Pollution
- Stress

All these factors expose our skin to free radicals that **deplete the collagen in our body and causes cells to degenerate.**

L-Glutathione

This antioxidant binds to **free radicals, toxins and heavy metals and rids them from the body.**²

Hyaluronic Acid

Hyaluronic Acid **locks in moisture 1000x its own weight to provide cushioning and lubricating effect** within skin outer layer (dermis).³

Algae Astaxanthin

The unique molecular structure of Astaxanthin gives it **trans-membrane ability in fighting free radicals** from both inner and outer layers of the skin.⁴

Fish Collagen Peptides

Fish collagen peptides with its **refined molecular size (<2000 Dalton)** is found to be **easily digested and absorbed** to effectively fill in the body's gap of collagen to rebuild skin from within.⁵

For radiant complexion, take 1 Gluta HA after breakfast; mix 1 BerryGen® to 200ml water and drink before bed. For optimum results in lesser time, double this up daily until desired result is achieved.

Masak Lodeh

The Malay favorite made so easy!

Spice Paste

- 20g dried prawns, soaked and drained
- 5g pre-roasted belacan
- 20 large red chillies, sliced
- ½ tsp turmeric powder

Basic Vegetables

- 100g carrot
- 100g sengkuan
- 100g eggplant
- 100g fermented soy beans (tempe), cut into 2cm cubes
- 100g long beans, cut into 5cm lengths
- 200g cabbage, cut into 2cm slices
- 1 soybean sheet (fuchuk) – soak 10 mins, drain and shred into small pieces
- 10g glass noodles (soak 10 mins then drain)
- 2 salam leaves (optional)

Gravy

- 250ml fresh coconut milk (or from packet)
- 500ml water
- 1½ tsp salt
- ½ tsp sugar

1. Place ingredients for spice paste in a small electric food processor/blender and add 2 – 3 tablespoons of water. Blend to a fine paste. Transfer this into the TupperChef™ Inspire Fryer, spreading the mixture evenly on the base of the Fryer.
2. Next, arrange the prepared vegetables over the spice mixture in layers according to the order given (carrots at the base, followed by sengkuan, then eggplant and so on). Cover and cook on LOW heat for 10 minutes.
3. Meanwhile, stir together coconut milk, water, salt and sugar until seasonings are dissolved. When vegetables are cooked (after 10 minutes), lift lid and add the coconut milk mixture. Let gravy come to a boil, stir and turn off heat. Close lid.
4. Add additional seasoning to suit your taste if necessary.

Since Inspire retains heat even after flame is turned off, you can continue to cook coconut milk without overboiling. Over-boiling can cause coconut milk to separate.
